

AXIS Q6032 Special DESIGN

Need the 6032 in a different color or special mounting? We deliver bouth, you can have the camera in all RAL colors and the mounting you need. The aluminium parts will be powder coadet and the sunshield will be painted with 3 layers for a long lifetime. Our job , beside the painting is to disassemble the camera components and after getting a new color we make a full functions check so everything will work fine.

domhousing, black

wallmount, 50cm longer than original version

For the wallmounts we have adaptorpipes in different lenght.

Polemount for 80-160mm poles also 100-200mm available

White special adaptor with 90cm length and a massive corner mounting

Blue version with standard wallmount
