

PoE – Accupack

If you use your laptop for camera installations with PoE you allway have the problem that you need a extra power for your PoE Injector. This new ,all in one, modell works completely independant.

The basic version can supply a 1755 over 5 ours continous without rechargement. Off course we can supply modells with longer runtime.

A high PoE version for power up domcameras and outdoorcameras are available soon.

Basic modell works with IEEE 802.3af
