

## Outdoordomhousing IP 68 for AXIS P55 and Q 60 series

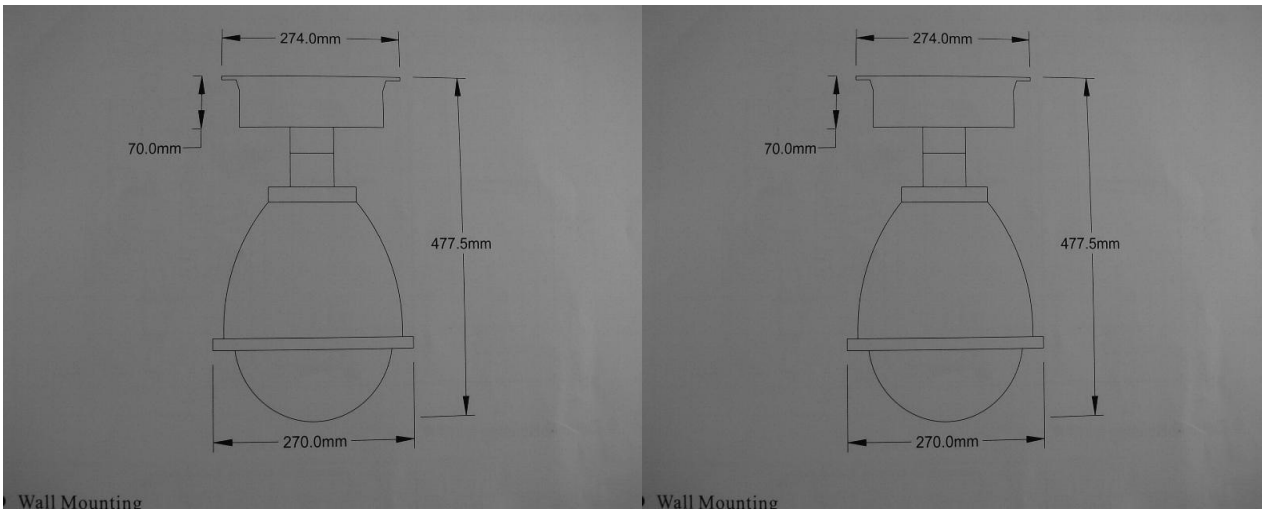

Rugged outdoordomhousing with connector box and vandal proof glas. The wall (or ceiling) mount is part of the connector box and is massive with coverd cable channel. So the movement through wind is come to a minimum. Inside the connector box you have space to build in additional electronic like wireless equipment or optical converter. You will get the housing fully wired assembled and ready to use.

The housing is available with build in 90-230VAC power supply, 12VDC version or as a full PoE with build in high PoE splitter

### Special features:

- **Multible power inputs, 12VDC, 24VDC, POE, 90-230VAC**
- **Access to Audio and I/O from the camera**
- **IP 68**
- **No gap in the glas, you can use the full pan/tilt area without any unsharp areas**
- **Vandal proof glas**
- **Massive wall or ceiling mount**
- **In the connector box are space for additional electronic like W-Lan or optical converters**
- **Made for the P55 and Q 60 indoor series, so there is not a big price difference to the AXIS “E” version**

Build in W-Lan transmitter

Build in outdoor microfon

Specification:

Bracket:	Aluminium
Housing:	Flame resistant ABS
domglas	Polycarbonat
classified:	IP 68
heater activation:	ON +15C    OFF: +25C
fan activation	ON:+35C    OFF: +25C
glas resist a hammer with 10lbs	

Ordernumber:

Outdoorhousing with connectorbox(build in power supply 90-230VAC)  
vandal proof glas, cameramounting, Heater fan and wall(or ceiling ) mount

ordernumber: 9000

Outdoorhousing with connectorbox(build in high PoE splitter)

vandal proof glas, cameramounting, Heater fan and wall(or ceiling ) mount

ordernumber: 9011

Pole/corner mount , two in one part

ordernumber: 9009
