

**Stainless Steel housing for fixed cameras**

Special for ships, harbours or areas with hard weather conditons we design or new stainless steel outdoorhousing.  
 This housing can be used with saltwater and have a IP 67 protection.  
 Standard is a heater and fan. Beside models from other companys this one is well designed and small.

The camera can be mounted easy to the housing. (Pleace note by using AXIS 221 you have to remove the cap from the DC-lens connector)
