

Stainless Steel Minidom

The new stainless steel minidom series are available with mounting kits for many camera models. We have kits for AXIS, SANYO or SAMSUNG cameras. Other models on request.

The housing material is 316, so it is saltwater proof. Many customers use these housings on ships or in the food industry.

The housing can be mounted directly to the wall or ceiling. Also we have a wallmount, pendet kit and a power box. Also a heater/fan kit can be mounted inside.

There are different modells with 12VDC, 24VAC, 230VAC or PoE available.
