

Special mountings for Q6032-E

Sometimes you need for installation longer wallmounts, thicker pole adaptors or may a longer ceiling or a swan neck? We make the mounting you are looking for. See below some solutions we made in the past.

We can make your custom mounting fast and to a very good price.

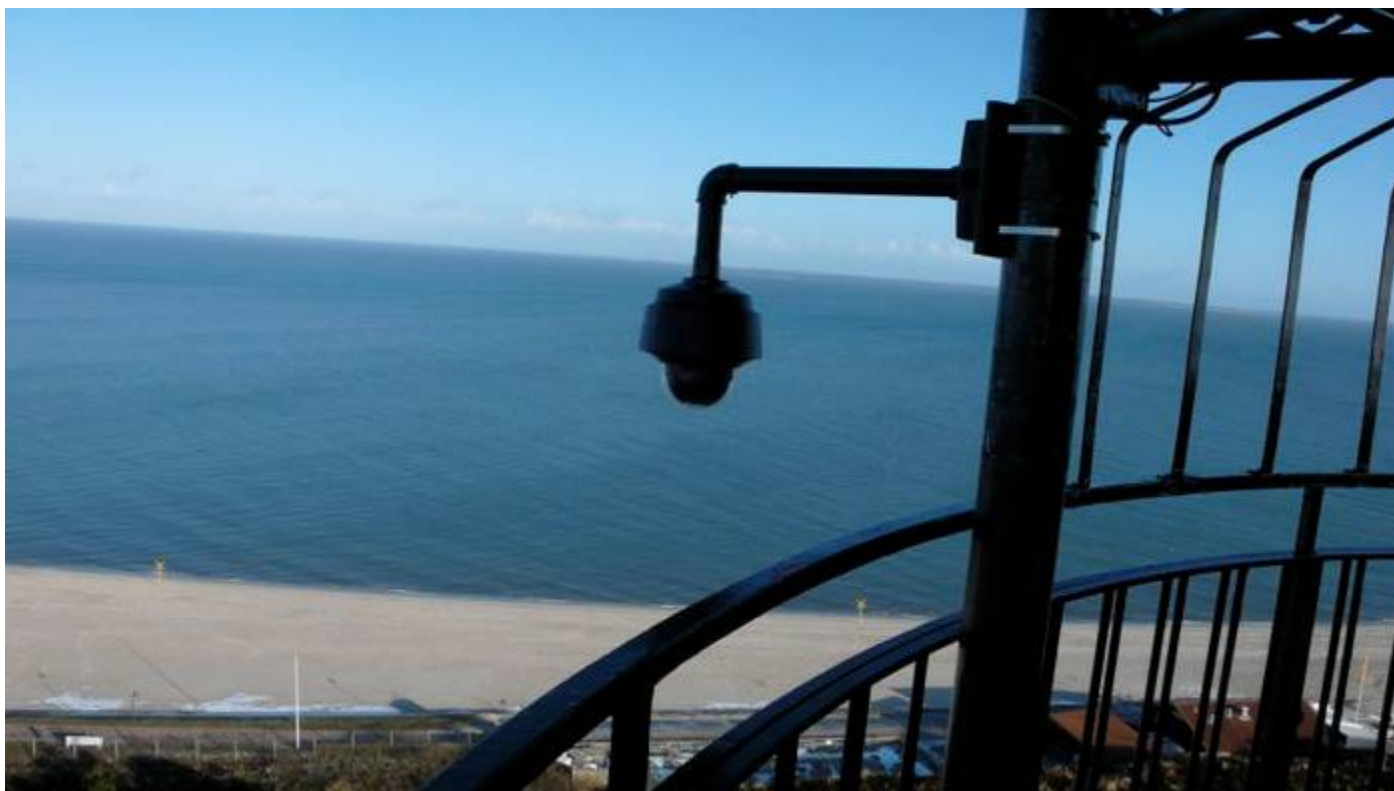

special wallmount with a lenght from 70 cm

pole adaptor for 100-200mm poles, other diameter on request

very special construction with a custom made corner mount and a total length from 1,20m

Here you see our solution live in action on the German coastline.
