

New products for SONY cameras

Control unit VISCA for SONY EVI and FCB

beside our famous control units BASIC and VISCA II we now offer a version for user who want to use their own control bottoms and switches.
So maybe in a control room you can chooses any bottom you want to have and connect it to the control box. So you have your design in the whole room.
The box can be mounted under the tabel.

Possibel functions:

- Zoom TELE/FAR
- Focus AUTO, Manuall, Near, Far
- 6 Preset bottoms
- daisy chain switch to control up to 8 cameras
- Par/Tilt (not in use for FCB)
- Disply ON/OFF
- Day/Night
- White ballance

Water protection housina for SONY FCB-20 series.

for use in industrial ares we now offer a protection housing which is not much bigger than the camera module. Ranked IP 65. As an option available with sunshield

Full aluminium camera body, as you can see we deliver it in the colour you want and with your LOGO.
