

Outdoor and Indoor wallmount for AXIS 225

This new, full aluminium wallmount for AXIS 225 can be used indoor and outdoor. A special benefit is, that inside the wallmount we can build in a power supply for the heating system from the camera or our high PoE splitter.
With our PoE kit you can supply also camera , heater and fan just with a standard network cable over 100m.

The camera is easy to mount. You will get with the wallmount a sealing kit to make the wallmount waterproof.
