

Outdoorhousing for AXIS 216

To use the AXIS 216 outdoor or in public places like subways ect , we offer a special massive alluminium housing with vandal proof glas. Also the waterprotection is ranked IP 67. As an option you can order also a heater and fan kit for low temperatures. The best thing is, that this housing is not much bigger than the original camera housing. The camera is easy to mount inside with just 2 screws.

Ordernumber : 10204

The housing also can be mounted on our adjustable wallmount

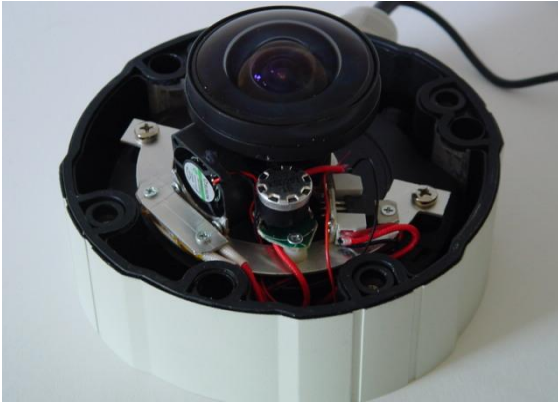

Ordernumber: 10100

Heater/fankit

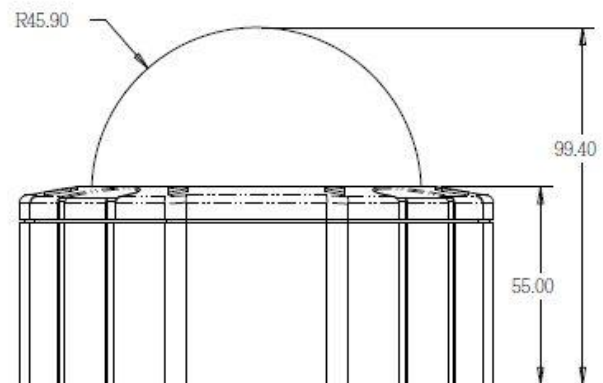

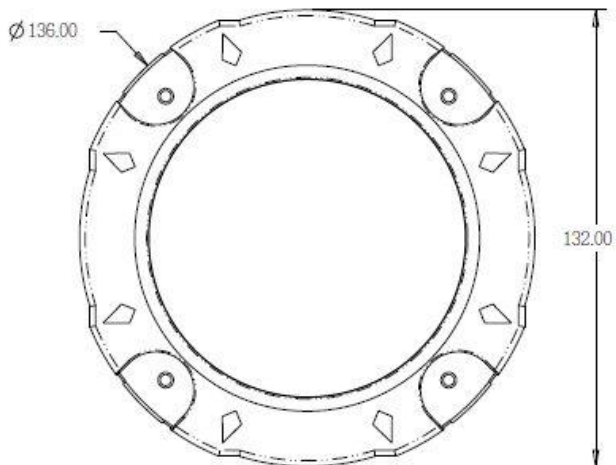

To use the housing in low temp areas we offer also a heater/ fan kit.

For temperatures below -30 degree also a double heater version is available.

The heater/fan is electronic controlled. The kit comes with a power supply
