## **New !!! Vandal proof housing for AXIS M1011/1054 series**

Taking the M1011 or 1054 to a public place you allways have the problem with vandalism. The new housing is real rugged. Made of steel and a thick glas, the camera is couvered very well against any attac.

Also available in IP 66 and with build in heating for outdoor use. The camera is easy to fit inside the housing and is also for corner mounting.

With this small size it is also possibel to mount it inside elevators , busses or trains.
